

# Y5 & 6 Home School Task

In the New Year we will be starting our new geography topic. We will be finding out about two contrasting localities St Lucia and Iceland and how they compare to Neath.

For homework we would like you to find out as much information about the volcanoes on these islands.

You can be as creative as you wish when presenting your findings.

You may like to:

- Make a power point
- Make a video
- Make a model

Remember that the information you gather must be from a reliable source of evidence. Take care not to trust everything you read on the internet!

Due Monday 16<sup>th</sup> January
